Our Services

The battle with cancer requires both an outstanding medical team and a team who provides wrap around services in a multitude of research-based areas. The Lili GC Foundation is here to support those diagnosed with women's cancer AND her medical team by offering best practice, research-based wrap around services in seven different areas.

In addition to those already impacted by cancer, we believe we can impact the LC Valley by offering preventative services. Our pro-active plan offers cooking courses designed to reduce the risk of cancer in high-risk populations.
